

criteria & application

Participation in Leadership P.E. is a competitive process. It is open to all engineers who live or work in Kentucky. A maximum of fifteen individuals will be selected to participate in the program each year. Only one application will be accepted from any one company or organization (and/or major division of a company or organization). A selection committee will choose the participants from a cross section of the state. Participants will be leaders and potential leaders who are active in business, education, the arts, religion, government, community-based organizations and ethnic and minority groups. They will reflect the diversity of the state.

To participate, individuals must meet the following requirements: (1) individual must be a member of at least one of these organizations: KSPE, ACEC-KY or the Kentuckiana Post of SAME, (2) applicant must have been living or working in Kentucky for at least one full year, (3) applicant must have the full support of the company or organization they represent, as well as their employer or supervisor and (4) applicant must attend ALL meetings or retreats.

Application for selection must be typewritten. Interested individuals should contact the Kentucky Society of Professional Engineers (KSPE) and request a "Leadership P.E. Application." All sections of the application must be completed. The application must be signed by both the applicant and the employer (sponsor). The deadline for returning the application for inclusion in the 2009/2010 Leadership P.E. program is June 30, 2008. Two photographs, suitable for publication, must accompany each individual application.

The individual tuition for Leadership P.E. for 2009/2010 will be \$750.00. The tuition will cover all program costs, but it does not include lodging and transportation to and from session sites. The tuition fee must be paid by September 1, 2009.

Leadership P.E.

CLASS OF 2010

- communication
 - citizenship
 - leadership
 - ethics
 - professionalism . . .
- skills development that makes Kentucky engineers effective leaders and paves the way for a changing world

what is Leadership

Leadership P.E. is a leadership development program designed to encourage, strengthen and build the professional careers and the civic involvement of entry- and mid- to upper-level engineers. This will be accomplished through organized career-training sessions and networking with business and community contacts and peers, as well as interactive meetings with community decision makers. It will involve a cross-section of leaders or potential leaders who are active in business, education, the arts, religion, government, community-based organizations and ethnic and minority groups. It will reflect the diversity of the professional engineering community.

This unique and positive image- and career-building program is designed specifically to benefit persons in the engineering profession. Participation in Leadership P.E. is limited to a maximum of fifteen individuals. Participants must be either EITs or PEs. They will be selected to participate in eight specially designed leadership experiences over an eight-month period.

Leadership P.E. follows the concepts developed by Leadership KY and other similar leadership programs. Leadership P.E. is the first of its kind to focus on professional engineers. As such, Leadership P.E. was designed, organized and implemented by members of the Kentucky Society of Professional Engineers (KSPE), the American Council of Engineering Companies of Kentucky (ACEC-KY) and the Kentuckiana Post of the Society of American Military Engineers (KP-SAME).

2009-2010 Class Schedule

1

Orientation Session

September 24, 25 & 26, 2009
Jamestown Marina—
Jamestown, KY

Objective: Allow the participants to gain a better understanding of themselves and the other members of their team. This will occur through an organized and structured self-assessment evaluation and feedback process and sessions on team building and balancing of life. The session also provides educational information about the history of engineering and the function of the Leadership PE training program, as well as professional societies. This session will set the stage for the remaining sessions. (Session starts Thursday at 1:00 p.m.; ends Saturday before noon.)

2

Communication Session

October 22 & 23, 2009
Natural Bridge State Resort Park - Slade, KY

Objective: Focus on the various methods and tools for effective communication. This will occur through exposure to techniques and methods of modern-day communication. It will also focus on audience, customer, marketing effectiveness and attention to both written and spoken presentations. Special emphasis will be placed on current electronic communications, techniques and functions. (Session starts Thursday at 1:00 p.m.; ends Friday at 5:00 p.m.)

3

Team Dynamics Session

November 19 & 20, 2009
US Army Corps of Engineers—Ft. Knox, KY

Objective: Focus attention on the external elements of leadership rather than the individual. The content of this session will include: (1) leadership styles, (2) matching the appropriate leadership style to individual development level, (3) maximizing team performance, and (4) case studies to enhance the learning experience. (Session starts Thursday at 1:00 p.m.; ends Friday at 5:00 p.m.)

4

Alumni Session: Meeting of Leadership P.E. Classes — Past & Present

Date and location to be determined

Special Event: An opportunity for the current class and the Leadership PE Alumni to join together for an day with special guests and activities, followed by networking opportunities. This event is planned to include a chance to meet others from LPE and to learn something as well! (This is a one-day-only session.)

5

Professionalism Session

January 21 & 21, 2010
General Butler State Park—
Carrollton, KY

Objective: Focus attention on the ethical and professional influences associated with the engineering profession. The content of this session will include: (1) the registration (licensing) process, (2) the value of society involvement, (3) the financial and legal elements of the profession, (4) ethics and (5) the systemic relationship of the engineering business. (Session starts Thursday at 1:00 p.m.; ends Friday at 5:00 p.m.)

6

Legislative Session

February 16 & 17, 2010
Kentucky Engineering Center—
Frankfort, KY

Objective: Focus the participants' attention on the political and economic realities that affect or are affected by day-to-day business and social activities. Attention will be given to the legislative process, economic development and community involvement. Direct contact and experiences with government officials will be at the heart of this session. (Session starts Tuesday at 1:00 p.m.; ends Wednesday at 5:00 p.m.)

7

Personal Management

March 24, 25 & 26, 2010
University Plaza Holiday Inn—Bowling Green, KY

Objective: Focus on the personal side of leadership, such as understanding how the individual acts and is perceived. It will also address: (1) how to personally manage and influence the way the participants act and react to external and internal situations, (2) personal goal setting and (3) management of stress and time. It will also provide exposure to the differences and similarities between management and leadership. (Session starts Wednesday at 1:00 p.m.; ends Friday at 5:00 p.m.)

8

Graduation

April 21, 22, 23, 2010
Galt House Hotel —Louisville, KY

Objective: Recognize the individuals who successfully completed the program and promote future programs. Post assessment, program review and future opportunities will be explored. This session will be scheduled in conjunction with the KSPE Annual Convention. Participants will have the opportunity to experience the KSPE Annual Convention.
